Dear Guy,

My big congratulations to all those colleagues who have contributed to the CIAO project to make it success.

If I have possibility, I'll pop in online tomorrow just to see what this kind of workshop is.

Best, Salla

Subject: CIAO final workshop on 8-9 February 2023

Dear colleagues,

The JRC Exploratory Research project CIAO is ending after a two-year journey in the world of interdisciplinarity.

The CIAO project, which had brought together 80+ scientists from 50+ organisations, introduced and implemented a truly interdisciplinary approach to explore the COVID-19 pathogenesis.

Colleagues will gather with the scientific CIAO crowd one last time under the Exploratory Research umbrella in **the 8-9 February 2023 Final CIAO Workshop** (online via Zoom), where colleagues will give presentations on their achievements, but also an outlook on what could come next feature on the agenda.

Find all info here: <https://webgate.ec.europa.eu/connected/events/32437>

I recommend colleagues to join the meeting and to embark for a last journey in the exciting world of interdisciplinarity to tackle COVID-19.

Best regards,

Guy
